

THE SOUTHERNER.

WEDNESDAY, AUGUST 29, 1867
LOCAL AND STATE NEWS.

WILMINGTON COUNTY COURT.—Want of business prevented our noticing fully the proceedings of this body, now in session on Monday, the Grand Jury were drawn, and we had the pleasure probably for the first time, of hearing an intelligent white man sworn and charged.

The jury was well represented, both from the county and abroad, but owing probably to the pecuniary condition of many of the clients at this time, these gentlemen, usually so active, cheerful and able, on such occasions, prevented, it seemed to us, rather rapid conclusions.

The County business was taken up and disposed of on Tuesday. Owing to the resignation of Wm. S. Battle, Esq., as Magistrate and member of the Special Court, an election was held to supply the vacancy and James P. Jenkins, Esq., being nominated, was unanimously elected. At a Special Term of the Court, held last month, the Magistrates were directed to make report at this Term of the condition of the Bridges in their several districts, which reports disclosed a much more favorable state of affairs, than we anticipated. While it was not necessary to repair and rebuild several bridges in a few of the Districts in consequence, they were reported in good condition and no action at this time necessary.

PUNISHMENT FOR WHIPPING A FRIEND.—General order No. 75 is out, requiring that the post court of Plymouth, N. C., had arraigned and tried. Abram Jenkins, justice of the peace, and William Dunning, Jas. M. Early, Arnold (alias Dick) Cook, John R. Early, A. J. Dunning, W. Dunning, John Rice, W. C. (alias Cherry) Dunning, G. H. Mitchell and H. D. Saunders, citizens of Bertie and Hertford counties, N. C.

Charge 1. "Riotous conduct." (One specification.) Charge 2. "Assault and battery." Specification—In this, that the said defendants, citizens of Hertford and Bertie counties, N. C., did in accordance with the decision of an unlawful assembly of persons at or near Harmon's cross roads, Bertie county, N. C., take one Philip R. Little (colored) from a school house to some woods near by, where 120 lashes, more or less, were inflicted upon his person, and the said defendants did inflict a portion of said blows or lashes. All this at or near Harmon's cross roads, Bertie county, N. C., on or about the 14th of February, 1867.

The defendant Sanders was found guilty of an assault and battery in whipping a negro girl and boy, called Ellen and Robert, and sentenced to be confined at hard labor for one month, at such place as the commanding general may direct, and to pay a fine of twenty dollars (\$20). Abram Jenkins was found guilty of the first charge, the specification to the second charge, and sentenced to be confined at hard labor one month, and fined \$20. Wiley Dunning and John Rice were acquitted. George H. Mitchell was found guilty of the specification to the second charge, and sentenced to be confined at hard labor for three months, and fined \$75.

FIRE EXTINGUISHER.—The impracticability, or rather the impossibility of obtaining a Fire Engine for our town seems to have been generally concurred in by all. As we are to be deprived of this safeguard, it becomes us to look around and endeavor to supply its place in some manner, and to do so, our worthy Commissioners should turn their attention to the operations and uses of the Portable Self Acting Fire Engine, which, while costing comparatively nothing, has proved a more potent extinguisher of fire, than any other species of engine now in use.

It has been put to the severest tests, and the results were entirely satisfactory in every instance. Though having never seen such a work of art, we have the testimony of some of the most responsible and reliable gentlemen in all the Northern cities as to its efficiency. The following are some of its advantages as represented to us:

It is always ready for use, though standing in a corner.

It puts out fire instantly.

It saves the great deluge of water now used for this purpose.

It is as effective in the hands of a lad as the most experienced fireman.

It is portable, and as easily handled as a bucket of water.

It possesses within itself the power of a force pump, and is as effective as a Steam Fire Engine.

It is harmless to health, life and property.

It is the only known invention that will put out fires from Kerosene, Tar, Petroleum and all combustible materials now so common.

With a few of these engines in Tarboro, we should feel comparatively easy.

THE CAPE FEAR GUANO COMPANY.—Any prices connected with the manufacture, price, &c., of Fertilizers will be of interest to a large class of our readers, and they will hear with pleasure that the exertions made by an enterprising Company in our own State will probably meet with the success they deserve.

In this connection, we give some facts obtained by the *Wilmington Post* from Hon. R. R. Bridges, President of the Company.

Some \$105,000 have been already subscribed, on the strength of which operations will be commenced, although the full amount desired, and which it is expected will be obtained, is \$250,000. The ground for the site of the works has been selected at Hilton, and has been already purchased, and in a few weeks ground will be broken there and the erection of the necessary buildings will be commenced. By the first of January of the new year, it is thought that the Guano will be in process of manufacture, and that a sufficient quantity can be made in time to supply the farmers of many portions of this and the neighboring States with fertilizers. The Guano will be of the Pattee kind, and a close attention will be paid to its production, but with the enlargement and extension of the works, other varieties will be produced. It is calculated that with the present resources of the Company the production will be at least one million bushels per year, and as soon as the subscription has been swelled to the ultimate hoped for, from six to seven millions and tons will be turned out yearly; enough, we presume to supply a large portion of each of the Southern States.

IMPORTANT.—Maj. Gen. Sickles, commanding the 2d Military District, has been relieved by order of the President, and Brevel Maj. Gen. Canby succeeds.

EXTINCTION.—The Raleigh *Progress* is out in favor of a war of extermination against Mosquitoes, Flies and Gnats.

We wish you much progress in your laudable undertaking but at the same time would commend caution. Remember your first struggle. Have you yet recovered sufficiently to commence another active campaign? Your opponents are not the advantage in numbers, if not size.

RAILROAD AND GASTON RAILROAD.—Stock in this Road recently sold at auction in Raleigh for \$12 1/2 per share, showing a decrease in value, since the last Stockholders meeting, July 4th, 1867, of about \$25 per share.

It will be recollected that the State Treasurer sold by order of the Convention, \$652,500 of stock in this Company for State bonds, then worth \$60, thereby saving for the State about \$121,000, of course those who purchased this stock have lost that amount.

The depreciation in the value of stock in this company may be readily traced to the superior skill and management on the part of the Wilmington and Weldon and North Carolina Roads. (In both of which the State is largely interested) when by a combined effort they succeeded in establishing a complete and thorough system of freight, via Goldsboro, at the same cost and time as formerly monopolized by the Raleigh and Gaston.

Want of penetration and a desire to retain the whole of the immense business hitherto transacted by this Company, prevented the R. & G. Road from accepting the terms proposed by the other Roads, and dividing the profits arising therefrom, and to this may be attributed the almost total loss of their former business, in the way of freight, and the consequent heavy and crushing depression of their stock.

From this they will also, no doubt, receive the thanks of individuals, for their loss in the exchange of State bonds for R. & G. R. stock.

PUNISHMENT FOR WHIPPING A FRIEND.—General order No. 75 is out, requiring that the post court of Plymouth, N. C., had arraigned and tried. Abram Jenkins, justice of the peace, and William Dunning, Jas. M. Early, Arnold (alias Dick) Cook, John R. Early, A. J. Dunning, W. Dunning, John Rice, W. C. (alias Cherry) Dunning, G. H. Mitchell and H. D. Saunders, citizens of Bertie and Hertford counties, N. C.

Charge 1. "Riotous conduct." (One specification.) Charge 2. "Assault and battery." Specification—In this, that the said defendants, citizens of Hertford and Bertie counties, N. C., did in accordance with the decision of an unlawful assembly of persons at or near Harmon's cross roads, Bertie county, N. C., take one Philip R. Little (colored) from a school house to some woods near by, where 120 lashes, more or less, were inflicted upon his person, and the said defendants did inflict a portion of said blows or lashes. All this at or near Harmon's cross roads, Bertie county, N. C., on or about the 14th of February, 1867.

The defendant Sanders was found guilty of an assault and battery in whipping a negro girl and boy, called Ellen and Robert, and sentenced to be confined at hard labor for one month, at such place as the commanding general may direct, and to pay a fine of twenty dollars (\$20). Abram Jenkins was found guilty of the first charge, the specification to the second charge, and sentenced to be confined at hard labor one month, and fined \$20. Wiley Dunning and John Rice were acquitted. George H. Mitchell was found guilty of the specification to the second charge, and sentenced to be confined at hard labor for three months, and fined \$75.

FIRE EXTINGUISHER.—The impracticability, or rather the impossibility of obtaining a Fire Engine for our town seems to have been generally concurred in by all. As we are to be deprived of this safeguard, it becomes us to look around and endeavor to supply its place in some manner, and to do so, our worthy Commissioners should turn their attention to the operations and uses of the Portable Self Acting Fire Engine, which, while costing comparatively nothing, has proved a more potent extinguisher of fire, than any other species of engine now in use.

It has been put to the severest tests, and the results were entirely satisfactory in every instance. Though having never seen such a work of art, we have the testimony of some of the most responsible and reliable gentlemen in all the Northern cities as to its efficiency. The following are some of its advantages as represented to us:

It is always ready for use, though standing in a corner.

It puts out fire instantly.

It saves the great deluge of water now used for this purpose.

It is as effective in the hands of a lad as the most experienced fireman.

It is portable, and as easily handled as a bucket of water.

It possesses within itself the power of a force pump, and is as effective as a Steam Fire Engine.

It is harmless to health, life and property.

It is the only known invention that will put out fires from Kerosene, Tar, Petroleum and all combustible materials now so common.

With a few of these engines in Tarboro, we should feel comparatively easy.

THE CAPE FEAR GUANO COMPANY.—Any prices connected with the manufacture, price, &c., of Fertilizers will be of interest to a large class of our readers, and they will hear with pleasure that the exertions made by an enterprising Company in our own State will probably meet with the success they deserve.

In this connection, we give some facts obtained by the *Wilmington Post* from Hon. R. R. Bridges, President of the Company.

Some \$105,000 have been already subscribed, on the strength of which operations will be commenced, although the full amount desired, and which it is expected will be obtained, is \$250,000. The ground for the site of the works has been selected at Hilton, and has been already purchased, and in a few weeks ground will be broken there and the erection of the necessary buildings will be commenced. By the first of January of the new year, it is thought that the Guano will be in process of manufacture, and that a sufficient quantity can be made in time to supply the farmers of many portions of this and the neighboring States with fertilizers. The Guano will be of the Pattee kind, and a close attention will be paid to its production, but with the enlargement and extension of the works, other varieties will be produced. It is calculated that with the present resources of the Company the production will be at least one million bushels per year, and as soon as the subscription has been swelled to the ultimate hoped for, from six to seven millions and tons will be turned out yearly; enough, we presume to supply a large portion of each of the Southern States.

IMPORTANT.—Maj. Gen. Sickles, commanding the 2d Military District, has been relieved by order of the President, and Brevel Maj. Gen. Canby succeeds.

EXTINCTION.—The Raleigh *Progress* is out in favor of a war of extermination against Mosquitoes, Flies and Gnats.

We wish you much progress in your laudable undertaking but at the same time would commend caution. Remember your first struggle. Have you yet recovered sufficiently to commence another active campaign? Your opponents are not the advantage in numbers, if not size.

BAD MANAGEMENT.—For two days last week, this entire community was deprived of all mail communication, simply because one of the so-called engines upon the Branch Road broke down as usual, and being in such a secluded and isolated place, of course had to depend entirely on our own exertions for any relief in the premises.

One would suppose that the business transacted on this Tarboro Branch Road was sufficient to justify the expense or trouble of replacing a broken down engine a few days with one suitable to do the work and meet the just expectations of the public.

We would suppose that the same obligations and responsibility to carry the mail and perform their duties remained with the managers, as well upon the Branch Road as upon the main stem, but would they dare to commit such an act there, as last week witnessed here.

It is hardly probable to suppose that the work-shops of the company contain no extra or spare engines, ready for such emergencies, and we can see no reason why one was not sent immediately, instead of keeping the public waiting until a work-shop could be improvised here, and damages repaired. A dispatch to Wilmington could easily have obtained one, in time to make all regular communications.

Even if that was impracticable, surely some steps could have been taken to forward the mail—a deprivation of which for several days in a business community like Tarboro, must result in considerable inconvenience, if not loss.

THE GREAT CASH STORE.—Bennet & de Silva of Rocky Mount, well known as the Cheap Cash Headquarters of that flourishing and thriving place, make their appearance in our columns in this issue—with the assurance that they sell *always* as low as New York prices, and often lower.

The numerous notices carried on by this firm warrants this assertion, and being also the Agent of the well known House of Bennett, Van Pelt & Co., of New York enables them to offer superior advantages over their competitors.

They are prepared to make liberal advances of Pork, Corn, Flour, Bagging and Rope, &c., to the Planters of Edgecombe county.

Don't forget the *Cheap Store*, Rocky Mount.

REGISTRATION.—The following returns show the result of the Registration in this County up to the present time.

	Whites.	Blacks.
Tarboro',	105	192
Rocky Mount,	36	184
Dravetts,	109	59
Sparta,	96	26
High Level,	106	226
Piney Grove,	71	256
Hickory Fork,	58	145
Total,	578	1,149

PERSONAL.—Judge Fawcett passed through our place on Sunday last, to hold Court in Martin, the First in the Circuit.

He exchanged his riding with Judge Little, who has been recently appointed Judge for the Eighth Circuit and confirmed by Genl. Sickles.

Judge F. presides with ability; the change will not be regretted by the 3rd Circuit.

POST OFFICE AFFAIRS.—Route No. 5, 937, N. C., Plymouth to Franklin Depot. Contract is ordered with Jacob Brann, Jr., of Baltimore, for three times a week service. Route 4, 199, N. C., Morrisville to Egypt Depot, is let to E. T. Clements, service six times a week, from September 1, 1867, to June 30, 1868, at \$2,100; and route from Jonesboro to Cary is discontinued. It is said this will be a great improvement.

THE FIRST COTTON.—A friend has handed us the first open boll of cotton which we have seen this season. It was grown by Mr. Charles Bishop on the plantation of Owen I. Tillaw, Esq., about four miles from this city. Our informant states that the specimen given us was pulled on Monday last, and from a stalk some six feet high.—*Wilmington Post*.

ANOTHER SICKLES SENTENCE.—A steamboat captain at Charleston, has been fined \$250 for having refused to grant a first-class ticket and passage to a colored woman, because of her color. Genl. Sickles argues the offender's guilt both as a lawyer and a commander, and approves the finding of the post court.

CIRCUIT COMING.—John Robinson's Circuit is on route South. It exhibits at Petersburg on September 2nd, and will be in Tarboro about the middle of September. Get your spare change ready.

COMMERCIAL.

Tarboro' Market.
REPORTED BY H. D. TELL, DEALER IN DRY GOODS, GROCERIES, ETC., MAIN STREET.

PRICE \$1.50 PER BOTTLE.
SENT ANYWHERE BY EXPRESS, ON RECEIPT OF PRICE.

THE BEST BLOOD PURIFIER IN THE WORLD.
Dr. Lawrence's Celebrated "ROSADALIS."

Read the following Home Certificates from Physicians.

We hereby certify that the ROSADALIS is prepared by a Physician, who is an experienced Pharmacist and Chemist, and that its remedy is an efficient and valuable one in Scrofula, Syphilis, &c., it having performed some remarkable cures in this vicinity.

W. A. DUGGAN, M. D. E. BARNES, M. D. R. W. KING, M. D. Wilson, N. C., February 4th, 1867.

We hereby certify that we regard Dr. Lawrence's Compound Extract of Rosadalis as a Reliable Alleviator, &c.

A. D. MOORE, M. D. L. A. STITH, M. D. Wilson, N. C., May 10, 1867.

Edgecombe County, N. C., May 20, 1866.

Dr. J. J. LAWRENCE—Dear Sir: Please send me immediately, per express to Tarboro, two dozen or more bottles of your Rosadalis. I have carefully examined its formula, and have used it in my practice in a number of cases. I am well pleased with it. I think it beyond doubt the BEST ALTERNATIVE I ever used. I have tried it in several cases of Scrofula and Scrofulous Affections, &c., with much satisfaction to myself and patients. I have also used it in Secondary and Tertiary Syphilis, (one a patient of mine) with the most successful results. I have reduced the most excruciating pain. I was reduced that it acted with surprising and satisfactory effect—making a quick and thorough cure. I have, therefore, no hesitation in recommending it to Physicians and others as the most reliable ALTERNATIVE now known.

Respectfully yours, &c., A. B. NOBLES, M. D.

A Wonderful Cure of Scrofulous White Swelling.

Home Certificate.

I hereby certify, that last September I was attacked with White Swelling of the left knee—and also with an enlargement of the glands of the neck—(one tumor reach a large size.) The swelling of the knee was enormous, and was attended with the most excruciating pain. I was reduced that I was confined to my room over three months. My leg was so completely drawn up, that I could not bend it at all. I tried various remedies, and they failed to give me any relief. I was in this condition when I commenced taking DR. LAWRENCE'S ROSADALIS. The swelling in both knee and neck began to subside before I took all of the first bottle. By the time I took the second bottle, the swelling of the neck entirely disappeared, and that of the knee nearly so. After taking three bottles I found myself completely well—able to walk as well as ever.

LATIMER WILLIAMS. Wilson, N. C., May 12, 1867.

Rosadalis will cure the very worst cases of Chronic Rheumatism.

Home Certificate.

I hereby certify that I was cured of long standing Chronic Rheumatism, by taking four bottles of DR. LAWRENCE'S ROSADALIS.

JAMES WILLIS.

Rosadalis Cures Carbuncles, Boils, Pimples, &c., &c.

BEWARE OF COUNTERFEITS. See that J. J. LAWRENCE & CO. is blown on the bottle and stamped on the cork.

ALL LETTERS OF INQUIRY, &c., PROMPTLY ANSWERED. DR. J. J. LAWRENCE, Wilson, N. C.

Sent free anywhere by express on receipt of price.
